

ConnectOne
IW-SM2144N2-BIO

A photograph showing an outdoor experimental setup. In the foreground, a white rectangular label is placed on a dark wooden table. The label contains the text "ConnectOne" in a large, bold, black serif font, and "IW-SM2144N2-BIO" in a smaller, black serif font below it. A black cable runs from the label, across the table, to a small green electronic circuit board. The circuit board is positioned on the table, and a thin wire extends from it towards a vertical metal pole in the background. The pole has some equipment attached to it, including a small white sensor or camera module. The background features a sandy area with sparse green vegetation, a large green tree, and a red patio umbrella on the right. A building with a corrugated metal roof is visible in the distance under a clear sky.
